

# TAMBOPATA JUNGLE

10D / 9N (OPTIONAL 5D / 4N)  
(Season: July - October)

*An unparalleled  
adventure  
traveling from  
the high Andes  
mountains to the  
lush Peruvian  
jungle along the  
Tambopata river.*

The Tambopata program begins at the heights of Lake Titicaca in eastern Peru, then descending to Putinapunku, the lower jungle and the mouth of the Tambopata river. Just days in to our adventure, you'll say "hasta luego" to civilization and embark into one of the last uninhabited

forests of the world, with only the river as our guide. Surrounded by 15,000 kinds of tropical vegetation, 1,000 bird species, hundreds of rare mammals and fish like pacu, gamitamas and catfish, it's an adventure for both your flies and senses!

## ITINERARY:

**DAY 1:** Juliaca - Puno Pickup from Juliaca airport and transfer to Puno. Spend night in Puno.

**DAY 2:** Depart at 6 AM in private transport to Lake Titicaca and through the Andean plains. We will travel up to 4,800 meter altitudes, passing through small indigenous and varying weather conditions to arrive to Putinapunko in the Puno jungle. Spend night in Putinapunko.

**DAY 3-4:** Entering Tambopata Depart early for Curva Alegre where we will prepare all rafting-fishing gear. Upon entering the river, we will paddle Class II, III and IV rapids, navigating the Madidi and Bahauia-Sonene National Parks along the Peru-Bolivia border. Mornings and evenings spent fishing near camp sites, and afternoons paddling down river.

**DAY 5-7:** Fishing Tambopata Begin full days fishing as we paddle deeper into the jungle. We will start seeing more native plant and animal species, such as capibaras, tapirs, river otters, innumerable birds and, if we are lucky, the majestic jaguar. Campsites are along large, white sand beaches deep within one of the most important national parks in Peru. Campsite for night 7 is at the confluence of the Tambopata and Tabara rivers, an excellent fishing spot.

**DAY 8:** Tabara. Depart early to travel upstream by motorboat into the Tabara river. Full day fishing. Afternoon travel to the Tambopata Research Center (TRC), a private lodge where we will spend the night.

**DAY 9:** TRC – Puerto Maldonado. Depart before sunrise for 10 minute boat trip to observe native macaws, parrots and parakeets. Return to lodge for breakfast and travel to Puerto Maldonado. Spend night in Puerto Maldonado.

**DAY 10:** Transfer to airport.

*“There are always new places to go fishing. For any fisherman, there is always a new place, there is always a new horizon.”*

*Jack Nicklaus*

### INCLUDED IN PROGRAM:

- Transfer from airport or hotel.
- Transport.
- Lodging in The Refugio and TRC.
- All food until dinner on final evening.
- Hotel in Puerto Maldonado (day 9).
- Professional fly fishing guides and local community guides.

### NOT INCLUDED IN PROGRAM:

- Airline tickets.
- Hotel in Puerto Maldonado before trip begins (ask in advance for assistance in making reservation).
- Fishing equipment.

## PACKING LIST

It is best to always have your body fully covered, for protection from mosquitoes, sun and heat. We recommend quick-dry, long-sleeved clothing, hat, Buff, sandals (or Crocs for use when fishing in the canoe), rain jacket, bug repellent, sunscreen, and sunglasses.

## EQUIPMENT:

we recommend 7-8 rods with floating or intermediate lines for tropical weather, large streamers, 30 pound leaders and 30 pound wire tippet.

Fishing conditions may change throughout the season. Peru Anglers will advise as to the best options available at the time of confirming your reservation.
